Mussolini's Body is Missing

Discovery Made This Morning by Workers; Inquiry Is Underway

MILAN, April 23—(AP)— Milan municipal authorities reported today that the body of Benito Mussolini was removed during the night from Maggiore cemetery here by "unknown" persons.

An inquiry to ascertain the responsibility was underway. The discovery was made by workers who were in the cemetery to exhume other bodies.

Mussolini was buried in a pauper's grave in the cemetery soon after his execution by partisans hear the Swiss border in April 1945.

The bodies of Claretta Petacci, his mistress, and five henchmen who were executed at the same time were buried near his grave. Mussolini was captured on the shores of Lake Como attempting to escape into Switzerland. After a summary trial, he and the others were shot.

Bodies Exhibited

The bodies were brought to Milan and hung up for exhibition in the public square. Thousands flocked to see the corpse of the man who had led Italy into war, and one woman fired several shots into his body, crying that each bullet represented her vengeance for her sons lost in the war.

The Maggiore cemetery is called "The German Camp" by Milanese JEFFERSON CITY, Mo., April

(Editor's Note: This is No. 3 of a series of articles submitted in explanation of the purpose and needs of an \$800,000 school bond issue to be voted

"The school bond issue proposes to build ONE elementary school to replace Broadway and Horace Mann. This building would be located, as nearly as possible, in the central part of the Broadway and Horace Mann districts. It would be fire proof and modern, in every detail and would have, at least, the following facilities:

"1. Twenty-one classrooms.

Shirley Temple is

18 Years Old Today

HOLLWOOD, April 23—(A)-

"2. An auditorium-gymnasium of adequate size. "3. Special rooms for music, art and manual training.

Cafeteria.

"5. Library. "6. Offices, etc.

"The enrollment in this combined school would be approxi-"There are many reasons for this proposed consolidation. In

the first place, it would cost almost as much money to build a new school for Broadway as it would cost to build a new school for Broadway and Horace Mann, combined.

"In the second place, the cost of operation of one school would be considerably less than the cost of operation of two

"In the third place, one school can offer much greater educational opportunities than can possibly be offered in two separate buildings. No small school can be a complete school unless the public is willing to pay an exceptionally high per pupil cost for its schools.

"For example, one auditorium-gymnasium can serve a school of 600 just as well as it could serve a school of 200. Special rooms for music, art and manual training can be provided, at a relatively low per pupil cost in a school of 600 whereas the cost would be prohibitive in a small school.

"In the fourth place, a school that is too large for one teacher for each grade and too small for two teachers of each grade is handicapped educationally, much more than the general public realizes. Such a condition makes it necessary to "split" rooms from time to time, with some teachers having pupils of two grades. This reduces by one-half teacher time that pupils of these grades receive. It can't be otherwise - and parents should know - when their children are in "split rooms" -they are really going to school only part time. "In an elementary school of five to six hundred - "split-

ting" of rooms would probably not be necessary. And, from an educational point of view consolidation of Broadway and Horace Mann is very much to be desired. In fact, it would be a good thing, educationally, even if it cost more money.

"The Board of Education realizes that some of the children would have to walk a greater distance to school - but they guarantee the patrons of Horace Mann and Broadway that a school bus will be operated for children who would be required to walk too far to school. The Board of Education has provided transportation for pupils in East and Southeast Sedalia to Washington and Whittier schools since 1930 when Arlington and Eugene Field schools were closed. They will do the same thing for pupils of Broadway and Horace Mann if and when these schools are consolidated.

"VOTE 'YES' AT THE SCHOOL BOND ELECTION May 7." | Grove, dismissed.

Predict Byrnes Will Press for an Early Treaty at Ministers' Conference

PARIS, April 23—(AP)—A well informed diplomatic source predicted today that Secretary of State Byrnes would press for an early treaty with Austria at the meeting of four foreign ministers as part of an American campaign to pierce the Soviet "iron curtain" across eastern Europe.

This American informant said the Austrian question would be put on the agenda of the conference of foreign ministers of the United States, Russia, France and Great Britain at specific American request. The meeting is to begin Thursday.

Discussion of an Austrian treaty has been set tentatively for the the Ruhr, it was said. Diplomatic observers said the

United States decision to recognize Yugoslavia was the first move in an "American diplomatic invasion" of eastern Europe.

ed as a nation following its absorption by Germany in 1938. Thus, he said, Austria was not at war as a nation.

The proposed treaty would recognize Austria as an independent nation, permit the withdrawal of the four armies of occupation and enable Austrians to regularize their international relations.

By Lynn Heinzerling VIENNA, April 23-(A)-

President Karl Benner suggest-

ed to 14 American editors and publishers visiting Vienna today that the occupation of Austria, now conducted by four powers, be turned over to a force of international troops under United Nations command. "If we mus htave a military occupation-and we desire a than by the four powers," he said. "If the U. N. does not suc-

The Wyatt program proposes to provide during 1946 only 950,000 permanent and 250,000 temporary

Going into 1947 with a minimum of 2,515,000 families living doubled up, or in furnished rooms, or living apart for lack of housing, he Wyatt program of 1,500,000 units next year would care for a net increase of 680,000 families and would reduce the number of

homeless to 1,695,000. But it would leave 250,000 still living in converted and unconverted barracks, in trailers and Quonset huts and collapsible war housing from which they will have

to move soon. Private building interests point out that by no means all of the homes scheduled by Wyatt to be started in 1946-1947 can be completed within the period, but they offset these with conversions and rehabilitations of existing housing, so that there is little disagreement as to how many can be housed these two years-if the Wyatt program works.

Aside from real estate groups, there is a little public question now as to whether the Wyatt two-year goal of 2,450,000 permanent and 250,000 temporary homes is justified by the need. The controversy is as to whether Wyatt's methods will get that number of homes

built. The Housing Expediter proposes to channel the necessary materials and manpower to the construction of small homes and inexpensive apartments by withholding them from more costly residences. To build, one must have a permit. In practice, permits will go only to veterans, and to those who agree to sell or rent only to veterans for at least a month after construction is completed. And emphasis and preference will be given to homes costing under \$10,000 or renting under \$80 a month. If too large a favor lower levels.

May Search For Girl's Body

SAN JOSE, Calif., April 23—(A) Quentin murderer Thomas H. Mc-Monigle to initiate a new search for the body of 15-year-old Thora

aid of a map drawn by McMonigle. Avilla said he was preparing affidavits seeking the release of McMohigle from San Quentin to lead the search.

Miss Chamberlain disappeared last November and McMonigle was convicted of her murder. Conflicting confessions were made by McMonigle, one of which said he threw her body down 365-foot devil's slide into the Pacific. None of the disclosures, however, produced the girl's body.

Record Crop Ahead

WASHINGTON, April 23 - (A) -Undersecretary of Agriculture N. E. Dodd said today there is a "good chance" that this year's wheat and corn crops will be the largest in the country's history.

Dodd, who is acquainted with more farmers and Agricultural Adjustment Agency committeemen than perhaps any man in government, based this optimistic prediction on reports he has received in recent weeks from all parts of the country.

Music That Looks Like This . . .

At top is actual music of the notation of the first theme from the third movement of Beethoven's "Sonata Pathetique," Opus 13. Graph below shows it charted in the Schillinger system.

BY MARC J. PARSONS NEA Staff Correspondent

NEW YORK-(NEA)-Want to through an incision. of New York City skyline and their treatment is different. transfer the outline to a piece of Styes Often Multiply

Even your own telephone book quickly along the lid. may have a good tune in it, may- Although styes were once conbe even a musical masterpiece.

Joseph Schillinger, a Russian- health, their most common cause born New York composer and is eye-strain. Persons who use teacher once used a Wall Street their eyes excessively, or those WITH THE EIGHTH FLEET, The news was communicated to

Schillinger spent a quarter of a century developing his theory of musical composition. Sweeping away all old patterns of musical thought, he approached the problem of composition and harmony as a mathematical question.

Conceiving music as a spacetime entity, Schillinger substituted a graph method of notation for the traditional forms of music writing. Once having projected music graphically into space-time, and having conceived sound into geometric patterns, he then varied these patterns according to the methods of projective ge-

Here is how it works. Pick a heme and put the notes along the left hand side of a piece of graph paper. Let one horizontal line be the fixed point of axis. Let one square on the graph paper be your smallest note as a unit of measurement. The length of the horizontal lines will be the duration of tones, and the vertical lines will indicate pitch levels.

Ready? Then start in, and if the result sounds like a piece of sand rubbed across a window pane erase and start over.

Or maybe you'd rather study Schillinger's complete theory -"System of Musical Composition" -a 1,700-page explanation of the

whole set-up. Gershwin Used It

The system works. Composer George Gershwin thought his musical well was drying up. He went to Schillinger for some private lessons, then wrote "Porgy and Bess." Glenn Miller whipped out his "Moonlight Sernade" as an exercise for Schillinger. Lyn Murray and Paul Lavalle of radio, and band leader Benny Goodman were among those who stud-

ied under him. In addition to private pupils, Schillinger taught at New York City's New York university and Columbia university's department of mathematics, fine arts and

Schillinger wasn't content to let his unique theories end with music. He applied his mathematical and harmonious patterns to his daily life, even to his clothing which he always wore in geo-

metric harmony. Since his death in 1943 at age 48, the Schillinger Society has carried on his teaching.

The Doctor Says BY WILLIAM A. O'BRIEN, M. D.

Written for NEA Service A cyst of an eyelid (chalazion) an enlargement of a small gland

fused with a requires weeks or months to

ymptoms until

size of a pea. Then a hard swelling, over which the skin moves freely, may be detected. The patient may think it is a stye, but cannot account for the absence of inflammation.

Cysts rarely disappear, and removal is recommended, for if allowed to remain they may become secondarily infected, and

rritate the eveball. At first, medicine is applied externally and massage and hot compresses are tried, generally

without success. Cysts Require Surgery

In a surgical operation, the eye is anesthetized, and the lid is everted. An incision is made over the cyst, the contents are removed, and the walls are curetted and cauterized. The eye may be disfigured for a few days, but healing quickly follows. Other cysts may develop later.

Styes tend to occur in all ages but are more common in young persons. The infection is caused by the entrance of germs from the edge of the lid into one of the hair sacs. Pain, tenderness, and swelling develop, and a yellowish point (a boil) forms on the sur-

In its early stages, a style is reated with cold compresses. As a rule this is unsuccessful, so hot compresses are next applied, to hasten the softening of the inTemporary Barracks | Shoots to Mark At Fort Riley Surplus

far enough to find the steak?

That's a ship propeller, being hoisted aboard a Navy landing ship for experimental installation at the Pacific Shipbuilding and Drydock Company's plant at Everett, Wash. Called a cycloidal propeller, its base rotor is seven feet in diameter. Each of the six vertical blades revolves on its own axis as the main rotor turns. Cycloidal propulsion is said to triple a ship's

speed.

Thompson of Texas won the two mile run at the Drake relays finishing 30 yards ahead of defending champion Virgil Alston, Miami U. of Ohio.

Nash BUICK MERCURY CHEVROLET You can't miss! -In any car get an OIL-PLATED engine Your first big aim: a new car. . . . And now this time you aim to keep it like new! Then don't miss your chance to start right—with an OIL-PLATED engine, ready to fight wear. You can have it in any make-any model-by using Conoco Nth motor oil. This patented oil proved to be a lifesaver all through the new-car famine. Perhaps it's been helping your own veteran engine, just as it always guards any engine's insides-by doing its job of OIL-PLATING! The basis of OIL-PLATING is Conoco Nth oil's uncommon added substance. This acts magnet-

like, so that lubricant is attracted . . . bonded . . . OIL-PLATED durably to inner engine surfaces. Their fitness—defended by OIL-PLATING—largely determines how much carbon and sludge you'll escape; how much oil and gasoline mileage you'll Don't say octane - SAY N-TANE* get. That's why you want an OIL-PLATED engine -when buying a new car-or when buying your *TRADE MARK old car's needed oil change for Spring. See Your Conoco Mileage Merchant. Continental Oil Co. ONOCO

GEORGE H. TRADER,

Vice-President. GEORGE H. SCRUTON,

Mail or bring to the Sedalia Democrat-Capital 110 West Fourth Street, Sedalia, Mo.

Many Sedalians and Pettis countians, who favor the daylight savings plan for Sedalia, stating it gives an extra daylight hour for gardening, recreation, or other purposes, have asked the Democrat-Capital to insert a ballot, such as above, to give the people of the county an opportunity to state their opinion on the question. The ballot may be cut out and brought or sent to the Democrat-Capital office.
